

Yue

20.8.19

potential co-operation

liang has visiting PhD student China Beihuan Univ  
Apr 19 to Apr 20 [in Beijing]

- driver's focus of attention

RGB - short period video predict focus

webcam top of car & ~~one of face of driver~~

- Jiewei / To date to RSPH } - eye tracking glasses  
? ethics - should be OK

- driving simulator Jinsuwei Ma  
& eye gaze data

→ organise to meet soon!

- lv kai, Yue, YHL, Jinsuwei, liang

lvkai @ buaa.edu.cn

- counting, still not clear plan for

plan: multi view - crossroads - counting

& cameras usually face into the intersection

sketch

fast

estm. cross-city traffic flow

- synthetic data - if big enough maybe  
can use next year  
as a challenge  
(AT city)

- multiple kinds of crossroads

Melbourne look-turn

tram / light rail
